She wants to know if the 10ppb non-detect level that's been set for PPH and MCHM is a common level for non-detects. Maybe the region can answer?

Subject: Quick Question

Hi Carolyn and Laura,

I just left Carolyn a voicemail, but if one of you could give me a call the Senator asked me a question about non-detect levels. My direct is (202) 228-5658.

Thanks!

Erin
